Re: Karen Cureton

Karen worked for Bovis Homes Central Region as Area Sales Director between August 2001 and April 2007. Her role encompassed the recruitment, training and development of on-site sales staff for a number of developments, together with the progression of sales to meet regional targets.

Karen is an extremely focused and professional individual, possessing a tenacious nature that is ideally suited to the transactional process. Her years of experience in the property market enable her to proceed with confidence and assurance in her ability to complete the task in hand.

Her ability to put her skills to good use can be seen in the consistently high results that she achieved whilst working for Bovis Homes, and her enthusiasm for the job shines through.

She is a trustworthy individual and her years of experience will be put to good use in her new venture.

We regret losing Karen however we also wish her every success in her new venture with letsmovehouse.net

Yours sincerely

Keith Carnegie

To Whom It May Concern:

REFERENCE FOR KAREN CURETON

Having worked with Karen for a number of years I can honestly say I would have no hesitation in recommending her company 'Let's Move' to you.

You can rest assured Karen will relish the opportunity of working to tight time schedules, should the need arise. In fact she was at her very best when under pressure and never failed to achieve year end targets.

Her communication skills were fantastic both externally and with her colleagues so you will not feel you are just a name or number. Nothing is too much trouble and she is very experienced in dealing with solicitors, etc..

Her warm personality shines through and I am sure you will all be amazed at how efficiently and professionally your house move is handled.

NIGEL ASHWOOD
Construction Director

August 2007

Reference for Lets Move House Ltd

When moving house, you want to know that a competent person, who knows the role of all the players in the process, is pushing your sale while you get on with your day to day life. In my experience, there is no one in the selling process like Karen Cureton and Lets Move House Ltd who genuinely coordinate and push all parties so that you know on a regular basis where your house sale is up to. By using this service, you can be sure that any problems that arise are dealt with so that the sale does not stall while people await your instruction.
